EDUCATION

Harvey Mudd College

BS, Computer Science and Mathematics

Aug 2024 – May 2028

Claremont, CA

- **Dean's List Honors.** Coursework: Data Structures (Java, C++), Systems Engineering, Scientific Computing (MATLAB, Python), Machine Learning, Computability, Algorithms, Mathematical Analysis, Probability/Stats (R)
- **Apple Next-Gen Innovators** (Sep 2025 – Present). Selected for 1:1 SWE mentorship with an Apple engineer

EXPERIENCE

Drafter

Intern, AI Tooling & Internal Automation

Jun 2026 – Present

San Francisco, CA

- Gather requirements internally (from CTO) and externally (from customers); own **4** tooling projects on 2wk sprints
- Shipped bolt-torque calculator used by U.S. Coast Guard and **400+** defense/mech engineers; cuts calc time **>50%**
- Built Fathom-to-CRM integration across sales and engineering, cutting deal-card creation from **2.2 min to 30 sec**
- Building agent that diagnoses and auto-patches CAD geometry-engine failures, targeting **1-day to 10-min** triage

P-ai at the Claremont Colleges

President (Aug 2026–) | Director (Jan–May 2026) | Project Lead (Aug–Dec 2025)

Aug 2025 – Present

Claremont, CA

- Leading **128-member** software project incubator, managing **8 project teams** and **5 directors** per semester
- Scoped milestones and success criteria for project leads; led biweekly reviews and cleared blockers as director
- Delivered National Science Bowl prep app MVP in **10 weeks** managing a 5-member cross-functional team

HMC Innovation Accelerator Lab

Fellow, Product R&D

Jan 2026 – Present

Claremont, CA

- Ship user-facing apps on weekly sprints for Harvey Mudd students; write PRDs and scope features from user feedback
- Built and evaluated **5+ prototypes**, documenting technical trade-offs to drive decisions with student stakeholders

Wayfair

Extern, Agentic AI & Business Analytics

Oct 2025 – Jan 2026

Remote

- Shipped 4 agentic workflows monitoring Amazon, Walmart, and Living Spaces to surface pricing & assortment gaps
- Synthesized rugs-sector market data into executive dashboards informing product design & merchandising decisions

HMC Dept. of Computer Science

Research Intern, Hardware Curriculum Development

May 2025 – Aug 2025

Claremont, CA

- Designed a five-lab hardware practicum manual now integrated into CS005, deploying to **250+ students** annually

PROJECTS

minus. — Petite Fit Finder | Product Owner

Jul 2026 – Present

- Building v0 of a clothing-fit platform for petite shoppers, rendering to-scale silhouettes that visualize pre-purchase fit
- Designing an engine mapping body measurements to petite brand-specific bra and jeans recommendations, based on a growing database of real women's sizing details across 10+ brands

SafeNest: Pregnancy, Protected | 1st @ CGU Hacks (MindStudio, React.js)

Nov 2025

- Architected dual AI agent system for medical document interpretation and pregnancy-specific clinic search
- Integrated ArcGIS environmental risk-mapping and prenatal specialist search under a 12-hour build constraint

SKILLS

Languages: Python, Java, TypeScript, C++, MATLAB, R, SQL, HTML/CSS

Tools: git, Docker, n8n, Grafana, Jira, Figma, Notion, Azure

Concepts: Technical Program Management, Cross-Functional Coordination, Requirements Gathering, Roadmapping, Risk & Dependency Management, Agile/Scrum
